

Your loved ones are traveling in bad weather conditions.

Would you like to obtain their location remotely and ensure they are on course?

You are shopping in the mall on a Saturday afternoon.

Would you like to know if your vehicle has moved from its parked position, indicating possible theft?

Your car has been stolen.

Would you like to track its route and provide valuable location information to local law enforcement?

Your teenage son or daughter has taken the family car out for the afternoon and is an hour late.

Would you like to know where they are, including the vehicle's speed and direction?

You have parked your car for the night and have set a radial boundary around its location.

Would you like to be alerted if it moves out of that area?

Security

Safety

Convenience

Valor empowers you with the ability to access vehicle information and receive automatic notifications. If you need to obtain vehicle information or perform an Action, you can easily go online or use a touch-tone phone. Also, when a condition is met and the vehicle automatically notifies you, this type of information can be received via text messaging, email or phone. Valor offers the convenience of 24 hours a day, 7 days a week access in virtual real-time.

Valor is an innovative and powerful GPS vehicle tracking device that can be easily accessed via the internet or a touch-tone phone, 24 hours a day, 7 days a week. Valor offers an interactive tool for vehicle safety and theft recovery, as well as the protection of your loved ones on the road.

Tracking Teen Drivers – Don't let your child be a statistic.

Just knowing that they are being tracked helps deter misbehavior behind the wheel. Be notified when a certain speed has been exceeded. Set the GEO Fence feature to notify you if the car enters or leaves a specified area.

Delivering Value

Security

- Take measures to ensure vehicle safety and theft prevention.
- Obtain early indication of a possible vehicle theft, improving response time.
- Provide valuable information to the appropriate authorities to help recover stolen vehicles.
- Know your vehicle's activities by receiving notifications via text messaging, email or phone.

Safety

- Have peace of mind while loved ones are on the road with the ability to access your vehicle's location 24/7 via the Internet or your phone.
- As a concerned parent, obtain your teenage driver's location, including speed and direction in a moments notice.

Convenience

- Know the street-level location of your vehicle in virtual real-time throughout North America.
- Receive phone and/or email notifications when electronic vehicle boundaries are crossed, your car's battery is disconnected or your vehicle is being towed.
- Have the ability to receive vehicle notifications or access vehicle information from the Internet or a touch-tone phone.

Actions

Valor Actions are instructions you can send to equipped vehicles, from an Internet access point or touch-tone phone.

Locate

Locate your vehicle (i.e., late, missing, stolen, etc.) and receive its location, speed and direction.

Track

Trace the route your vehicle is traveling by receiving the location, speed and direction every five minutes for a total of thirty minutes.

Boundary On

Turn on a dynamic radial boundary (1 mile) on your vehicle and automatically know when it has moved outside of this predefined area, receiving the location, speed and direction.

Boundary Off

Turn off the radial boundary on your vehicle when you do not require knowing if it has moved outside of a predefined area.

Alerts

Valor Alerts are automatic notifications of events, circumstances and conditions, which are constantly monitored and reported to you by equipped vehicles.

Unauthorized Movement

(Early Theft Warning)

Automatically know when your vehicle has moved while the ignition is turned off (i.e., when being towed) and receive the location of the violation.

Vehicle Battery Disconnect

(Early Theft Warning)

Know your vehicle's battery has been tampered with, indicating a possible theft, and receive the location.

Boundary Crossing

(Early Theft Warning)

Know when your vehicle has crossed the radial boundary you set on your vehicle, indicating a possible theft, and receive the location, speed and direction.
